

**MARKETING MANAGEMENT II:  
MARKETING STRATEGY  
via MARKETING RESEARCH and SIMULATION**

(MKTG 613)

February 2013

**COURSE DESCRIPTION,  
REQUIREMENTS AND ASSIGNMENTS**

**Professor Eric T. Bradlow**

**The K.P. Chao Professor, Professor of Marketing, Statistics, and Education**

**Objectives**

Building upon Marketing 611, this course focuses on helping you refine your skills in developing a marketing strategy and seeing how the marketing tactics (4Ps) selected need to be in alignment with that strategy. The course will focus specifically on issues such as the selection of which businesses and segments to compete in, what products to launch, how to allocate resources across businesses, how to maximize customer lifetime value and its relation to customer churn, as well as other significant strategic issues facing today's managers in a dynamic competitive environment.

All of these issues will be discussed and couched in the context of *the dynamic nature of market evolution that occurs throughout the Product Life Cycle (PLC)*, pictured above. Students will develop strategic thinking skills and learn to apply analytical tools to help formulate effective marketing tactics in each phase of the PLC. These concepts will be concretized in the context of an in-depth marketing strategy simulation that will occur throughout the course. To aid in making good decisions in the simulation, there will be lectures throughout the course on quantitative marketing research methods that will help you translate marketing information into marketing strategy.

This simulation, SABRE, will occupy a significant part of our time and activity in the course. You will be assigned to a SABRE team where each team will be charged with managing a firm in an unfamiliar new market where in each “SABRE period” you will make a wide range of decisions including what new products to bring out, when, and how to market them. The SABRE simulation thus provides an experiential context that serves to illustrate the PLC principles discussed in class, and gives you the opportunity to test alternative actions and analyses without the cost of implementing them in real settings.

### **Outline of Each Class Session**

While the exact structure will vary depending on whether it is a lecture, or SABRE-oriented class, in general each session will have three facets:

- 1) ***Analytical frameworks for thinking through the problem.*** For the business problem being discussed, the class will explore a range of general analytic frameworks through which the problem might be approached, and evaluate their comparative strengths and weaknesses. The purpose of this is to provide a systematic basis for narrowing down the set of candidate options, and choosing a best option in light of available data.
- 2) ***Informing the decision through data.*** Given a general analytic framework, most classes will go on to explore how greater precision can be brought to the decision at hand through the use of data and subsequent customer insights (marketing research).
- 3) ***Linking class ideas to the SABRE simulation.*** A critical objective of each class will be to help make transparent the links between the real-world problems and tools discussed in class and the problems you face managing your SABRE firm. In some cases this will include demonstrations of how analytic tools introduced in class can be directly applied to aid decisions in SABRE.

### **Course Website**

Many of the course’s activities (lecture slides, FAQs for SABRE) will involve the use of Wharton’s Canvas software, which you can access at: <https://wharton.instructure.com/login>

Please bookmark this website and check it as often as necessary. This site will contain copies of class handouts, and other general information about the course.

## **SABRE software**

SABRE is a simulation program that is run centrally at Wharton Computing; however, for each team to download their information and make decisions in a given period, they need to have the SABRE software loaded locally on their machines (Windows machines only, no Macs unless running a PC emulation tool). To download SABRE, please see the .exe (executable file) and instructions that are loaded on the Canvas site.

## **Grading**

The weighting of the inputs for the final course grade is:

<b>SABRE Performance</b>	
<b>Periods 1-3</b>	<b>40%</b>
<b>Periods 4-6</b>	<b>40%</b>
<b>Final SABRE Memo</b>	<b><u>20%</u></b>
	<b>100%</b>

## **Attendance**

While participation is not an explicit part of the grade, no absence is allowed given the 2-weekend way in which this course is being delivered, and the fact that your team “needs” you for SABRE. Attendance will be taken by a TA.

## Course Outline

### DETAILED COURSE EVALUATION CRITERIA

1. **Measuring SABRE Performance:** Your team's performance in the SABRE simulation will constitute a major part of your grade. The primary measure we will use is the net cash flow generated by your business ("Cumulative Net Contribution"), which you will be striving to maximize within your virtual industry. Each industry will have six independent teams with different starting positions.

In order not to discourage any team prematurely, we will measure and grade your SABRE team based on Cumulative Net Contribution at two points in time, first for the early three decisions (periods 1-3) and then again for the later three decisions (periods 4-6). This will give us the possibility to reward turnarounds and penalize "fizzle-outs." Hence, you will receive two scores which will then be averaged for your grade in this component of the course.

When your SABRE decisions have been run, you will receive an email. Then, you may download your results and data for the next round of decisions. See the course outline at the end of the syllabus for specific dates and times.

2. **Final SABRE Memo—TEAM ASSIGNMENT (DUE 2/23/13, in class)** Assess your final market position, including your products, competitors, and discuss how your strategies have changed over time in response to competition, industry evolution, and other strategic dynamics. Write this memo as if the audience were the next marketing management team that will be taking over your firm in the next hypothetical period. Discuss strengths and weaknesses, "blind spots" that you missed, and things that you would do differently. Describe briefly the strategy you foresee for your firm in the next hypothetical six periods. Please provide a clear statement of your firm's future objectives, strategies and tactics looking forward, based on what you have learned throughout the 613 course. This report should use the results through round five decisions made by each team.

**In addition, provide a forecast of what you predict will be your team's period-six dollar market share will be within the Regalto and Innovo markets** (actual performances will be revealed in the last class).

This report should not exceed **THREE** double-spaced typewritten pages (not including tables and appendices) and 8 pages in total.

## Course Schedule and Timeline

There are two sections of MKTG 613. The course schedule and timeline below lays out when each section will be meeting.

	Section 1	Section 2
February 15th 9:00am-10:30am	Intro to PLC and SABRE	Intro to PLC and SABRE
February 15th 10:30am-12:00pm	SABRE Introduction Cont'd	SABRE Introduction Cont'd
February 15th 1:30pm-3:30pm	Work in SABRE Teams (Prof and TA moderated)	Work in SABRE Teams (Prof and TA moderated)
February 15th 3:30pm-4:30pm	In-Class SABRE Q & A with Professor	In-Class SABRE Q & A with Professor
February 15th 4:30pm-6:00pm	Work in SABRE Teams (Prof and TA moderated)	Work in SABRE Teams (Prof and TA moderated)
February 15th 10:00pm	<b>Round # 1 SABRE decisions due 10pm</b>	<b>Round # 1 SABRE decisions due 10pm</b>
February 16th 9:00am-10:30am	Marketing Research for New Product Launches	OPEN
February 16th 10:30am-12:00pm	Marketing Research for New Product Launches	OPEN
February 16th 1:30pm-3:00pm	OPEN	Marketing Research for New Product Launches
February 16th 3:00pm-4:30pm	OPEN	Marketing Research for New Product Launches
February 16th 4:30pm-6:00pm	Work in SABRE Teams (Prof and TA moderated)	Work in SABRE Teams (Prof and TA moderated)
February 16th 10:00pm	<b>Round # 2 SABRE decisions due 10pm</b>	<b>Round # 2 SABRE decisions due 10pm</b>
February 18th 10:00pm	<b>Round # 3 SABRE decisions due 10pm</b>	<b>Round # 3 SABRE decisions due 10pm</b>
February 20th 10:00pm	<b>Round # 4 SABRE decisions due 10pm</b>	<b>Round # 4 SABRE decisions due 10pm</b>
February 22nd 9:00am-10:30am	Product Pioneering	OPEN
February 22nd 10:30am-12:00pm	Mature Markets	OPEN
February 22nd 1:30pm	<b>Round # 5 SABRE decisions due 1:30pm</b>	<b>Round # 5 SABRE decisions due 1:30pm</b>
February 22nd 1:30pm-3:00pm	OPEN	Product Pioneering
February 22nd 3:00pm-4:30pm	OPEN	Mature Markets
February 22nd 4:30pm-6:00pm	Work in SABRE Teams (Prof and TA moderated)	Work in SABRE Teams (Prof and TA moderated)
February 22nd 10:00pm	<b>Round # 6 SABRE decisions due 10pm</b>	<b>Round # 6 SABRE decisions due 10pm</b>
February 23rd 9:00am-10:30am	Optimal Resource Allocation	Optimal Resource Allocation
February 23rd 10:30am-12:00pm	Marketing in the Decline Phase	Marketing in the Decline Phase
February 23rd 12:00pm	<b>FINAL SABRE STRATEGY PAPER due 12:00pm</b>	<b>FINAL SABRE STRATEGY PAPER due 12:00pm</b>
February 23rd 1:00pm-2:30pm	Course Conclusion and SABRE Wrap-Up	Course Conclusion and SABRE Wrap-Up
