OVERVIEW

This course introduces and examines the main features of the provision and financing of health care in the United States. It covers providers of care, health care products and services, the relationship between health and health care, private and public insurance and related financing mechanisms, health care reform, factors affecting health policy, and the impact of health policy on key stakeholders. The course pays close attention to the economic incentives facing institutions and individuals and to the economic context of important health policy issues.

READINGS

Required: Paul J. Feldstein, Health Policy Issues: An Economic Perspective, 5th ed., available at the PENN Bookstore. (The 4th edition has the same chapters except for chapter 21. It does not reflect recent changes in the health care system and has older data.)

Additional background articles for the lectures will be posted on the course's Canvas site:

<https://wharton.instructure.com/courses/953506>. Non-Wharton students will need a Wharton ID to access the web site. **Wharton IDs can be obtained by going to Wharton Computer Consulting in Room F35, Jon M. Huntsman Hall, or apply online at <http://accounts.wharton.upenn.edu/>.** If you experience problems obtaining an account or accessing Canvas, please contact Allison Hedges ahedges@wharton.upenn.edu.

LECTURES

Outlines/slides for lectures will be posted on Canvas prior to class. Speakers may expand or cover additional material beyond the slides.

EXAMS AND QUIZZES

Exam 1 (February 13, in class)	100 pts
Exam 2 (March 25, in class)	100 pts
Exam 3 (April 29, in class)	100 pts
Writing assignment (Due April 3)	50 pts

The exams will be non-cumulative and a combination of multiple choice, identification, and short answer questions. Five percent of the points may cover material from the readings that is not covered in class.

Exams must be taken when scheduled and can only be made up with an excused absence pursuant to University rules.

Your grade will be based on your total number of points. A+, A, A- range: 297.5 and above; B+, B, B- range: 262.5 – 297; C+, C, C- range: 227.5 – 262; D+, D, range: 192.5 - 227. Plus and minus cutoffs will depend on class performance, but will likely be close to endpoints of the relevant range. *Those cutoffs will not be disclosed.*

WRITING ASSIGNMENT

You are required to write a 200-250 word reaction/opinion/analysis of a newspaper article or blog post dealing with health care in the form of a “letter to the editor.” Candidate articles/posts will be posted to Canvas during the semester. **Due date: April 3.**

I will grade the assignment, equally weighting substance and exposition. If you request a regrade, both TAs will read your assignment and refer it to me for further review if they feel an adjustment may be warranted. Any regrade can result in an increase, decrease, or no change in points.

CLASS PROTOCOL

Attendance is important. Class participation is encouraged. You should attempt to arrive on time and, unless you inform me prior to class or become ill during class, stay until the end. You should remain quiet unless participating and abide by the rules announced in class regarding electronics. Violations of this protocol may result in one or more fines (point deductions) at my discretion.
