Overview: This module considers the legal and ethical responsibilities of managers and others who play significant roles within business enterprises. It examines difficult ethical conflicts and dilemmas that arise in a global business context. It is designed to reveal common patterns of success and failure in dealing with ethical decisions in business. Its objective is to help students anticipate issues they will confront in their business careers and to develop skills to think more clearly how such issues can and should be resolved. Class sessions will focus on discussion of cases, exercises, and theoretical frameworks used for interpreting practical problems in business ethics.

The ‘Responsibility in Global Management’ module has four objectives:

- To foster an understanding of the ethical responsibilities involved in global management;
- To improve individual skills in identifying and analyzing a select number of ethical issues that business managers face in the context or situation in which they arise;
- To encourage the development of action plans that resolve ethical conflicts and dilemmas once they have been identified; and
- To critically examine the assumptions and values that everyone brings to complex business decisions that raise ethical issues.
Reading Materials:

The required text is *Corporate Social Responsibility: An Ethical Approach* (Schwartz, M.S., Broadview Press, 2011) available at the University of Pennsylvania bookstore (or you might try Amazon). In addition to the book, all additional reading materials (articles and cases) for each week can be found under the Study.Net Materials folder on the Canvas course website. Additional items may be added during the semester.

Grading: The final grade will be based on a closed book multiple choice mid-term exam worth 25%, and an open book take-home final exam worth 75%, and the submission of a personal ethical dilemma (mandatory submission - pass/fail).

Ethical Dilemma Assignment (Due Date: Beginning of 2nd Session, October 27th or 28th): Students will be required to submit an actual ethical dilemma that they have encountered in a work environment. The write-up should include two parts: Part A - a brief description of the situation, the central issue or dilemma and the possible options (clearly identify them); Part B - how the dilemma was resolved including any remaining issues. If you did not do what you believed you should do, please indicate the reasons. Several dilemmas will be selected for discussion throughout the course and for the final session. Students should be prepared to acknowledge that they were the author of the dilemma, and to discuss it in class. Certain dilemmas may also be selected and posted to be read by other students in the particular section. In order to respect privacy and the confidentiality of others however, students should not identify other individuals involved, nor any organization involved. Length: Maximum 1 page. Students should bring a hard copy with their name and section number on it to be submitted at the beginning of the second session as well as submit their assignment on the Canvas course website prior to class. Pass/Fail grade (but submission is required in order to avoid an LT designation).

Mid-Term: The mid-term will be held on either Wednesday, November 16th (sections 002/004/006) or Thursday, November 17th (sections 008/010/012). The mid-term will be closed book and will consist of a series of multiple choice questions which are designed to ensure students are familiar with the theoretical tools (e.g., moral standards and corporate social responsibility theory), readings and cases covered during the first half of the course. Please note that job interviews will not constitute an acceptable reason to miss the mid-term.

Final Exam: The final exam involves the analysis of a case study, making use of the tools and materials discussed in class. The final exam will be available in case form and posted on the Canvas site after 3:00 pm on Thursday, December 8th and is due on Tuesday, December 20th by 3:00 pm [please note that late exams will be subject to a grade deduction of 5 percent per day (every 24 hours) for any reason with no exceptions]. Final exams will be submitted online onto the Canvas course website.
Class Attendance: Class attendance is mandatory and will be taken during each session through a signed attendance sheet. Students should ensure that they have signed the attendance sheet each session before leaving. You are entitled however to miss up to two sessions for any reason whatsoever with no penalty. Missing three sessions however for any reason (except for medically documented, health-related reasons) will lead to an automatic half grade deduction (e.g., from B+ to B). Missing four sessions for any reason whatsoever (except for medically documented, health-related reasons) will lead to an automatic full grade deduction (e.g., from B+ to C+) and an LT designation. Missing five or more sessions for any reason whatsoever (except for medically documented, health-related reasons) will lead to an automatic failing grade. Perfect attendance can assist in moving borderline grades to the next higher grade. You must immediately inform me by email (schwartz@yorku.ca) if you are unable to attend any session. If you would otherwise miss a class, you should attempt to attend another section’s class (up to two occasions only), but you must still inform me by email beforehand if this is going to take place. Preparation and pre-reading of the assigned material (articles and cases) and contribution to class discussions is expected.

Class Etiquette: Students should avoid coming into class late or leaving early if at all possible. To avoid distracting other students and to best ensure full participation, students must refrain from using their laptops (other than for taking class notes) and cellphones during class sessions. Students who use their laptops for any purpose other than taking notes will be asked to turn them off. There is no seating chart, but students should ensure that their name cards are used for each session.

Topic: Ethical Decision Making - How Does One Know What is Right or Wrong?

Over the next two sessions, the basic tools are provided for engaging in ethical analysis and decision making. We focus on the question: How does one know what is ethical in business? In order to explore this, students are introduced to the first set of moral standards (e.g., core ethical values, relativism, egoism, utilitarianism) that can be used in helping to determine whether a course of action is ethical.

Students should be prepared to present and defend their position on corporate social responsibility (CSR). We then discuss case study of Merck which presents the difficulties in deciding whether it is appropriate for a public company to spend shareholder’s money on a pill to help cure river blindness around the world, even when prospective customers are too poor to pay for the medicine.
