People often think about “marketing” strictly as *advertising* — a highly visible activity by which organizations try to persuade customers to buy products and services. However, marketing is much more than advertising alone; even the most skillful marketer cannot make customers buy things that they don't want. Rather, marketing involves: (1) identifying customer needs, (2) satisfying these needs with the right product and/or service, (3) assuring availability to customers through the best distribution channels, (4) using promotional activities in ways that motivate purchase as effectively as possible, and (5) choosing a suitable price to boost the firm’s profitability while also maintaining customer satisfaction.

These decisions – product, distribution, promotion, and price – comprise the *marketing mix*. Together with a rigorous analysis of the customers, competitors, and the overall business environment, they are the key activities of marketing management, and they are crucial ones: failure to find the right combination of the “mix” may result in product (or service) failure. In turn, that means loss of revenue, loss of jobs, and economic inefficiency.

The objective of this course is to introduce students to the concepts, analyses, and activities that comprise marketing management, and to provide practice in assessing and solving marketing problems. The course is also a foundation for advanced electives in Marketing as well as other Wharton courses.

**Course Content**

You will learn how to make sound decisions pertaining to:

1. **Segmentation, Targeting, and Positioning.** How to assess market potential, understand and analyze customer behavior, and focus resources on specific customer segments and against specific competitors.
2. **Go to Market Strategy.** How to understand the role of distributors, retailers, and other intermediaries in delivering products, services and information to customers.
3. **Branding.** How to develop, measure, and capitalize on brand equity.
4. **Pricing.** How to set prices that capitalize on value to customer and capture value for the firm.
5. **Marketing Communications.** How to develop an effective mix of communication efforts.
In addition, the course also helps you develop the following important skills:

- Make and defend marketing decisions in the context of real-world problem situations with incomplete information (case studies and simulation).
- Improve your skills in group problem-solving and in written communication
- Make cross-functional connections between marketing and other business areas.

The skills you acquire will be useful regardless of industry.

Course Materials

**Optional Text:** *The Shopping Revolution, Updated and Expanded: How Retailers Succeed in an Era of Endless Disruption Accelerated by COVID-19* by Barbara Kahn

These optional books were written by members of the marketing department and touch on various aspects of the course.

- Contagious: Why Things Catch On
- Global Brand Power: Leveraging Branding for Long-Term Growth
- Customer Centricity

Cases for recitations are available on Canvas’s Study.net section
Additional readings will be placed in Canvas/files by lecture

Lectures/Recitations

Topics for each week of the course are identified on the assignment schedule below. Each week, Monday's lecture will be given by Professor Kahn or a special guest speaker and will provide an overview of the relevant topic. It is important that you do the assigned readings in advance of the lecture since that session will build on the text and other reading materials.

As part of the lecture in-class activities, you will often be challenged to apply what has been discussed to a particular product or service (call this your “Keystone product”). You may want to choose a product or service in which you have a long-term interest, for example, one in a category in which you want to work in the future. **By doing this, you make this class not only an introduction to marketing, but an investment in your own future interview. You will be asked to make a presentation about your keystone brand in the last recitation session.**

Your recitation sessions are among the richest experiences you will have in Marketing 101. Your TAs are selected from Wharton’s most elite MBA students. They will lead you in the analytic
application of lecture ideas, led by your own critical thinking, in ways that allow you to gain
generalizable insight for complex business challenges.

In many of the recitations sessions you will be discussing a case. For each case:

You will also be evaluated based on your participation in the Case Discussion during
your recitation. Your TA will set the standards for participating; please communicate
with them if you have concerns about your ability to participate fully, given logistics and
other pandemic-related/distance-related demands. We will also encourage participation
online in the canvas discussion forum. For those who have an excused absence from
class, be sure to post articles in the Canvas Discussion section that apply what we have
covered in class or provide updates on examples discussed as well as offering thoughtful
comments.

You will also play the simulation, **Pivot or Perish**, in your recitation. You will be part of a team
who manages a retailing company called Getchell’s. You will learn how to play the simulation
and have one practice round. Then your will have one week to make 5 more decisions and to
prepare a PowerPoint deck for presentation in the following week’s recitation. Your TA will give
you guidelines for this presentation.

Attendance is **required** at all scheduled class sessions. All students, whether taking the course pass-
fail or not, must complete the homework and midterms, in order to receive a grade in the course.

**Notes on Case Preparation**

The case situations that will be discussed have been developed by careful research on actual
situations in real companies. The case writer has attempted to describe enough of the background
and details of the situation to give an understanding that provides an adequate basis for class
discussion.

Thorough pre-class preparation is essential to having a good in-class discussion. Reading the
case is not enough. After an initial reading to get the broad pattern, go back and study the case
thoroughly, developing your understanding of the problems confronting the individuals in the
case. Make any notes you find helpful and mark up the case to facilitate structuring your
understanding of the situation. Identify the major problems and key relationships. Conceive
alternative solutions to the problem and identify the advantages and disadvantages of each.

Do not be surprised if you feel that the case lacks some facts that you would like to have to make
a better decision. Management decisions are frequently made on only the facts on hand at the
time of the decision and often these facts are not as complete as might be desired.

Remember that the ability to make effective decisions without all of the facts is an essential
executive skill. Business situations are complex and frequently involve a series of interrelated
problems. Likewise, there are usually several alternative possible solutions, each involving
different degrees of risk, cost, and simplicity of execution. The opportunity to see the variety of ideas expressed by your colleagues, and to be exposed to the challenge of defending your ideas in the face of questions they may ask, provides a major part of the benefit from case discussions.

Objective Individual Learning Assessments

A portion of the Marketing 101 grade is based in objective, individual assessments in the form of two exams. Exam 1 will be taken electronically during your recitation section during the week of February 28th, and Exam 2 will be during the last lecture for the course. These exams will be subject to the Penn honor code; any violations of the honor code will result in an immediate 0 on the exam, whether you are the information seeker or provider. Please know that these assessments are designed for you to reflect on how much you’ve learned and should be approached as the opportunity that they represent to do so.

Grading

**Recitation Preparation:** Quality and consistency of case participation in class or online in the canvas discussion forum (graded by TA) 25%

**Simulation in-class Presentation (team):** 10%

**Keystone Brand in-class Presentation (individual):** 10%

**Wharton World Interview:** To try to help you make connections with the broader Wharton community, you will interview one non-class member of the Wharton community – whether an MBA student, an executive MBA student, a professor, or an alum. Your TA will provide you with a list of names of individuals who have volunteered to talk with you and will help you set up interviews in groups of up to 6 each, or you can find a member of the Wharton community to interview as you like.

**Your group should develop a set of 5 interview questions and provide your interview summary to your TA no later than December 1:** 5%

**Two Exams:** Multiple choice & true/false, timed for 75 minutes each, taken electronically, closed notes and closed book, 25% each.

Final grades will be assigned in the following manner:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Cutoff</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>97-100%</td>
</tr>
<tr>
<td>A</td>
<td>92-96.99%</td>
</tr>
<tr>
<td>A-</td>
<td>90-91.99%</td>
</tr>
<tr>
<td>B+</td>
<td>87-89.99%</td>
</tr>
<tr>
<td>B</td>
<td>83-86.99%</td>
</tr>
</tbody>
</table>
To summarize: the key elements of your grade are:

1. Lecture: Exam1 and Exam2, which are based on the in-class content, discussions and activities. (25% each)
2. Recitation: Participation in recitation case discussions and online discussion board. (25%)
3. Simulation in-class Team Presentation (10%); Keystone Brand in-class Presentation (10%)
4. Interview of one member of the Wharton family outside of the undergrad community (5%)

The schedule for the course, by week, is as follows – changes will be announced via Canvas.
